#### **Overview**

Adobe® Creative Suite 3 is the ideal design solution for allowing students to express their creativity while creating professional-quality output for a wide variety of uses.

Affordable site licenses or lab licenses are available for integrated editions of Adobe Creative Suite 3 containing the latest graphic design, web design and development, and film and video software used by professionals around the world. With Adobe Creative Suite 3 software, students can learn valuable skills to help them thrive in post-secondary education and future careers.

#### **Adobe Creative Suite 3 Design Standard**

Adobe Creative Suite 3 Design Standard software puts full-featured, industry-standard applications for digital communication in the hands of students and teachers. Integrated tools for layout, image editing, and illustration allow students to create professional-quality print materials and content for websites and interactive projects, while learning future career skills in the process.

#### **Adobe Creative Suite 3 Web Standard**

Adobe Creative Suite 3 Web Standard software gives teachers and students comprehensive tools to design motion graphics and to create and maintain engaging interactive websites. With new releases of current professional tools, the Web Standard edition offers image, 3D and motion graphics tools so students can realize their ideas and learn valuable future career skills as they work.

#### **Adobe Creative Suite 3 Production Premium**

Adobe Creative Suite 3 Production Premium software is a total post-production solution for higher education. Tighter-than-ever integration provides a more fluid workflow that reduces rendering and saves time. Feature-packed new releases of Adobe's essential post-production and graphics tools let students learn all aspects of filmmaking and post-production as they gain valuable skills for use in future production careers.

## What's included for schools

### K-12 Site Licenses for Adobe Creative Suite 3 are available for:

## Resources

Free curriculum is available at [www.adobe.com/education/curriculum.html](http://www.adobe.com/education/curriculum.html).

# Benefits of Adobe K-12 School Site and Lab Licenses

## Affordable solutions that save your school money

Buy the latest industry-standard tools at prices to match your school and district budgets. Value-priced site and lab licenses ensure schools can easily and affordably adopt these tools for their curriculums.

## Essential, industry-standard tools

Adobe Creative Suite 3 puts the same tools creative professionals use into classrooms at the best possible price, allowing teachers to give student the skills to compete and succeed in secondary education as well as the global work force.

## An engaging learning experience

Adobe provides content and curriculum that show educators not just how to use the products, but how to integrate the tools across the curriculum, letting them engage and deliver cutting-edge course curriculum while enriching student creativity.

## Valuable career skills

Adobe Creative Suite 3 supplies students with digital communication knowledge that is highly in demand by employers, allowing them to develop a marketable foundation for becoming the leaders for tomorrow.

## Supports the latest Mac and Windows systems

Experience the ultimate in performance when running any of the Creative Suite 3 tools natively on Intel-based Macs and on Microsoft Windows Vista PCs. Works on legacy PowerPC-based Macs and Windows XP systems, as well.

## Rich, full-featured toolsets

Each suite provides the most extensive collection of tools and features available, offering students and educators more options than ever for expressing creative ideas. No other applications offer the breadth and depth of features Adobe products do.

## Pricing

The Adobe Creative Suite 3 School and Lab Licenses are available to qualifying K-12 public and non-public schools only, located at a single address. For example, individual schools located on the same campus must each purchase their own site or lab licenses. These licenses are not available for sale or use by post-secondary or higher educational institutions.

K-12 schools can purchase the site and lab licenses based on published total school enrollment.

Upgrades are available to schools that have previously purchased site licenses.

Product	Schools with 500 students or fewer	Schools with 501 students or more
Design Standard K-12 Site License	price TBD	price TBD
Web Standard K-12 Site License	price TBD	price TBD

Product	30 Licenses
Production Premium Lab License	price TBD

Software may not be used for commercial purposes.

Software for use by students may be installed only on school-owned or leased computers on school property.

Teachers may use software on school-owned, school-leased, and personally owned computers at school or at home.
